

# 山地学报

(SHANDI XUEBAO)

第41卷 第4期 2023年8月

## 目次

### 专家观点

青藏高原面地貌稳定态与高原隆升时间 ..... 张信宝, 刘维明, 陈宁生, 代彬 (459)

### 山地环境

长江上游地区土壤理化性质对土壤侵蚀阻力的影响 ..... 李以恒, 唐科明, 陈柯霖, 吴怀雨, 康艺洋 (469)

川西南高山松径向生长对气候响应的时空分异特征 ..... 史丰鸣, 杨睿, 石松林, 金亚宁, 管增艳 (478)

基于生态系统服务供需的贵州省生态安全网络构建与优化 ..... 曾兴兰, 陈田田 (493)

陕北黄土覆盖型丹霞地貌特征及成因 ..... 杨柳, 陈留勤, 潘志新, 邵崇建, 吴昊 (508)

近25年重庆主城区不透水面变化与驱动力分析 ..... 王克晓, 周蕊 (521)

### 山地灾害

典型高山峡谷泥石流堆积扇发育过程及特征——以藏东南帕隆藏布流域天摩沟为例 .....

..... 侯伟鹏, 余国安, 岳蓬胜 (532)

中国诱发滑坡的降水极端性特征及变化趋势 ..... 徐辉 (545)

三峡库区塌岸灾害易发性评价方法——以奉节—云阳段为例 .....

..... 王力, 胡文卓, 王世梅, 李玉, 范志宏 (554)

### 山区发展

秦巴山区社会-生态系统恢复力权衡-协同关系及驱动力——以陕南地区为例 .....

..... 李顺可, 杨新军, 石若晗, 王菲, 陈佳 (571)

欠发达山区农户生计恢复力测度——以广西凤山县为例 ..... 蒙子钰, 卢远, 汤传勇, 林思妍 (584)

山村地域系统的康养旅居功能与产业化 ..... 李东, 李仲先 (597)

### 山地技术

基于 Inter. iamb-Tabu 算法的区域滑坡敏感性评价 ..... 尹超, 李仲波, 张凯, 王绍平, 郭兵 (608)

## CONTENTS

|                                                                                                                                                                                       |                                                              |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------|
| Geomorphological Steady State of the Tibet Plateau and Its Uplift Time .....                                                                                                          |                                                              |
| ..... ZHANG Xinbao, LIU Weiming, CHEN Ningsheng, DAI Bin (467)                                                                                                                        |                                                              |
| Effects of Soil Physicochemical Properties on the Erosion Resistance of Soil in the Upper Yangtze River of China .....                                                                |                                                              |
| ..... LI Yiheng, TANG Keming, CHEN Kelin, WU Huaiyu, KANG Yiyang (476)                                                                                                                |                                                              |
| Spatio-Temporal Variability of Radial Growth of <i>Pinus densata</i> in Responses to Climate Change in Southwestern Sichuan, China .....                                              |                                                              |
| ..... SHI Fengming, YANG Rui, SHI Songlin, JIN Yaning, GUAN Zengyan (491)                                                                                                             |                                                              |
| Construction and Optimization of Ecological Security Network in Guizhou Province of China Based on Ecosystem Service Supply and Demand .....                                          | ZENG Xinglan, CHEN Tiantian (506)                            |
| Characteristics and Genesis of Loess-Covered Danxia Landscape in Northern Shaanxi Province of China .....                                                                             |                                                              |
| ..... YANG Liu, CHEN Liuqin, PAN Zhixin, SHAO Chongjian, WU Hao (519)                                                                                                                 |                                                              |
| Urban Impervious Surface Changes in Main Urban Areas of Chongqing, China and Associated Driving Forces for the Period of 1995—2020 .....                                              | WANG Kexiao, ZHOU Rui (530)                                  |
| Development and Geomorphic Characteristics of a Typical Debris Flow Fan in Alpine Valley: A Case Study of the Tianmo Gully in the Parlung Tsangpo Basin, Southeast Tibet, China ..... | HOU Weipeng, YU Guoan, YUE Pengsheng (543)                   |
| Extreme Characteristics and Variation Trend of Rainfall-Induced Landslides in China .....                                                                                             | XU Hui (553)                                                 |
| An Updated Method for Susceptibility Evaluation on Bank Collapses along the Fengjie-Yunyang Section of Three Gorges Reservoir, China .....                                            | WANG Li, HU Wenzhuo, WANG Shimei, LI Yu, FAN Zhihong (569)   |
| Trade-Offs and Synergies of Socio-Ecological System Resilience and Driving Forces in the Qinba Mountains: A Case Study of Southern Shaanxi, China .....                               | LI Shunke, YANG Xinjun, SHI Ruohan, WANG Fei, CHEN Jia (583) |
| Measurement of the Livelihood Resilience of Farmers in Underdeveloped Mountainous Areas: A Case Study of Fengshan County, Guangxi, China .....                                        | MENG Ziyu, LU Yuan, TANG Chuanyong, LIN Siyan (595)          |
| Health-Wellness Functions of Mountain Village Geographical System and Tourism Industrialization .....                                                                                 |                                                              |
| ..... LI Dong, LI Zhongxian (606)                                                                                                                                                     |                                                              |
| Regional Landslide Susceptibility Assessment Based on Inter. Iamb-Tabu Algorithm .....                                                                                                |                                                              |
| ..... YIN Chao, LI Zhongbo, ZHANG Kai, WANG Shaoping, GUO Bing (620)                                                                                                                  |                                                              |
